July 2011

Dear Friends,

An update a special thank you.

My wife is happy at home in her own bed after four months in the hospital for
Interveinous treatment for infection in part of the incision(one small spot is still open)

She has her leg in a cast now and gets up onto wheel chair once in awhile.

Our medical bills have been paid, thanks to all of you. Thank you for praying/

Continue to do so as she hopes to be able to walk a little by the middle of

August. Pray for me also as I take care of her needs. This has been a new different and

Blessed experience.

Natividad Delarca
