

## PRAYER AND PRAISE LETTER

Alice Demarest

March – April 2011

### PRINT SHOP

We had a bible work week at our church. It involves all adults in the church and the children in our Christian school and day care. The children (who are supervised) are very serious about putting the "Word of God" together. We started at 8 o'clock in the morning until 8 o'clock at night for 3 days. We assembled, trimmed, and boxed 96,000 Bulgarian John/Romans and 37,000 English. It was a wonderful week and people who had never before participated were excited about what was being done and what was accomplished at the print shop all year long. We continue to work on the Bulgarian John/Romans and need 700,000 of them. We are also working on 20,000 whole bibles for Suriname.

### HEALTH

On Thanksgiving Day I injured my leg. I doctored it myself for a couple of months and it kept getting worse so I went to the emergency room on January 22<sup>nd</sup>. They immediately put me in the hospital. I was there for three days. They were afraid the infection had gone to the bone, but "Praise the Lord" it hadn't. I now go to a Wound Care Clinic every week and they monitor the progress. The doctor says it is 60% healed. Would you please pray for healing? I can still work at the print shop but I get up and walk around more than usual because sitting in one spot for a long time is the worst thing I can do.

Thank you for your continued support and prayers. God bless you as we serve Him together.

Love in Christ
